

Dear Parents,

Are you looking for an activity that will allow your child to continue learning *and* have fun over the Valentine's Day Weekend? Then check out the Greg Tang Math Valentine's Day Challenge! ([gregtangmath.com/valentines](http://gregtangmath.com/valentines))

Around Valentine's Day, students can go to [gregtangmath.com](http://gregtangmath.com) to complete the activities on the attached game board.

This is an *optional* activity. Students who can't participate will not be penalized in any way. Students who complete the challenge can earn a certificate and a chance to win a personalized signed copy of one of Greg Tang's books.

It is fine for students to get help from you or someone else if they need it. They can also move to harder or easier levels of the games to make them more or less challenging.

After your child completes the activity, just sign their sheet and send it back to school with them after the weekend.

Sincerely,
